THE CANDOCK G2 MODULAR FLOATING SYSTEM

A truly revolutionary product! The era of massive wooden, metal and concrete docks is over. Our high-quality plastic, environmentally friendly system is guaranteed for 20 years and requires no maintenance. Easy to use and reliable, it provides unlimited configuration and application options. The CanDock modular floating system has become a must for residential, commercial, marina, leisure or any other application. Simply compare its exceptional lifespan and high resistance to the most severe weather conditions against traditional floating docks and the advantages are crystal clear.

CORNER CUBE
THANKS TO OUR 45-DEGREE CORNER CUBE, IT IS POSSIBLE TO INCREASE THE NUMBER OF CONFIGURATIONS.

Modular: Each individual piece can be easily replaced. Configurations can be changed over time. We can build upon the docks with additional features

Time and Stress Tested: CanDock is an international provider of docking solutions. You can find impressive and unique dock solutions on CanDock.com showcasing their usage in wave zones and extreme low temperature conditions. CanDock provides a 20 year guarantee on the dock system.

Configuration: Configuration will remain the same. Docks will be widened to greatly increase stability. Ladder system is highly stable, safe, and easily removable. Configuration can be changed over time.

Installation: Professional installation is included. This dock system does not require removal in the winter months. It floats on the ice.

Testimonials: Crystal Lake is currently using CanDock systems across the lake. They are continually buying more year after year. Testimonials on the internet are great, and the Crystal Lake docks have been physically visited and tested by a Timberlake board member during both open water and frozen water conditions.
